ORDER# ~~GHWC SARS COV HR1006Z 1A~~

EFFECTIVE IMMEDIATELY

The Global Health & Wellness Consortium (GHWC) is the leading global health authority registered in the national archives of every nation. The date of this ratification (HR 616847221) is July 6, 2021.

Unidentified biological waste has been found in the Covid-19 vaccines, proving to cause injury and/or death.

The SARS-CoV-2/COVID-19 Vaccines in all forms, containers, brand names and delivery methods are biohazardous medical waste. Stockpiles of these vaccines held by doctors, hospitals, manufacturers, and storage facilities must be disposed of in alignment with state guidelines. The vaccines are part of the following categories of biohazardous medical waste listed below:

- Human Anatomical/Pathological Specimens: Samples of human tissue or bodily fluids that may contain pathogens.
- Liquids: Liquid cultures or specimens that contain or may contain bio-hazardous pathogens.
- Sharps: Sharp objects, such as needles, scalpels and broken glass. These objects are especially hazardous because they can instantly introduce pathogens under the skin through incidental contact.

Disposal of this Medical Waste must begin immediately upon receipt of this notice.

In addition, mandating the Covid-19 vaccine is in violation of the Nuremberg code as it is experimental and still in trials until 2023. No country, government, or private entity has the authority to mandate ANY experimental vaccine. All Covid-19 vaccine mandates are unlawful and ordered to cease immediately.

Furthermore, it is the responsibility of anyone administering any vaccine (including Covid-19 vaccines) to gain their own knowledge of what is in the vaccines as well as true statistics of injuries and/or deaths related to these vaccines. This includes, but is not limited to, all health care providers and workers, hospitals, clinics, doctor's offices, urgent care facilities, pharmacies, and schools administering vaccines. All those administering

Hall of Records

H.R. 2021-5487991247

the vaccines will be held responsible both in a personal and professional capacity for any and all injuries and/or deaths related to these vaccines.

All protection of health care providers, workers and vaccine manufacturers under the National Childhood Vaccine Injury Act of 1986 is null and void.

Failure to comply with this order will result in immediate grounds for criminal prosecution, and all who are in violation of this order will be held accountable in both personal and private capacities.

This Order will be enforced by the Global Intelligence Agency and Life Force Enforcement.

ORDER# GHWC-SARS-COV-HR10001-1A

EFFECTIVE IMMEDIATELY

The Global Health & Wellness Consortium (GHWC) is the leading global health authority registered in the national archives of every nation. The date of this ratification (HR 616847221) is July 6, 2021.

By order of the Global Health and Wellness Consortium, the following products, devices, and procedures are the recommended proven treatments to be used, offered, or recommended by medical institutions, medical professionals, urgent care centers, or by any individual or organization providing medical or emergency care for the treatment, recovery, or prevention of the condition defined as SARS-CoV-2 or COVID-19, including any variant or condition that has been identified or promoted prior to this notice or that may be identified or promoted in the future.

Product	Type of Product	Instructions
Ivermectin	Pharmaceutical - Prescription only	12 mg/day while ill, 12mg/week for one month afterward
Nebulizer/Inhaled budesonide	Pharmaceutical - Prescription only	Budesonide 0.5-1mg/2ml respules - used in a nebulizer 2x/day - every 4 hours for breathing symptoms. Can go as often as every 2 hours for severe symptoms
Clarithromycin	Pharmaceutical - Prescription only	500 mg tablet twice a day with food
Zinc Sulfate	Vitamin/Mineral	30 mg a day
Vitamin D3	Vitamin/Mineral	5,000-10,000 IUs per day
Vitamin C (Ascorbic Acid)	Vitamin/Mineral	800-1600 mg per day
Quercetin	Vitamin/Mineral	500 mg a day
Low dose aspirin	Pharmaceutical - OTC	81 mg pill every night
Hydroxychloroquine	Pharmaceutical - Prescription only	Physician guided dosing as alternative or supplement to Ivermectin

H.R. 2021-187521618221

These protocols are reimbursable by the Global Health and Wellness Consortium for the treatment of SARS-CoV-2.

Failure to make the above-mentioned protocols available to treat or prevent SARS-CoV-2 or COVID-19 will result in immediate grounds for criminal prosecution, and all who violate this order will be held accountable in both personal and private capacities.

This Order will be enforced by the Global Intelligence Agency and Life Force Enforcement.

Hall of Records 4.R. 2021-187521618221

ORDER# GHWC-SARS-COV-HR10003-1A

EFFECTIVE IMMEDIATELY

The Global Health & Wellness Consortium (GHWC) is the leading global health authority registered in the national archives of every nation. The date of this ratification (HR 616847221) is July 6, 2021.

Dozens of peer-reviewed science papers prove that face masks are dangerous and ineffective.

At least 47 published scientific papers confirm that face masks are useless at preventing Covid-19 infection and spread, while another 32 point out the specific health damage caused by wearing a mask.

A study done in Florida in June 2021 on children's face masks found 11 dangerous pathogens on the masks:

1. Streptococcus pneumoniae (pneumonia)
2. Mycobacterium tuberculosis (tuberculosis)
3. Neisseria meningitidis (meningitis, sepsis)
4. Acanthamoeba polyphaga (keratitis and granulomatous amebic encephalitis)
5. Acinetobacter baumannii (pneumonia, bloodstream infections, meningitis, UTIs—resistant to antibiotics)
6. Escherichia coli (food poisoning)
7. Borrelia burgdorferi (causes Lyme disease)
8. Corynebacterium diphtheriae (diphtheria)
9. Legionella pneumophila (Legionnaires' disease)
10. Staphylococcus pyogenes serotype M3 (severe infections—high morbidity rates)
11. Staphylococcus aureus (meningitis, sepsis)

Half of the masks were contaminated with one or more strains of pneumonia-causing bacteria. One-third were contaminated with one or more strains of meningitis-causing bacteria. One-third were contaminated with dangerous, antibiotic-resistant bacterial pathogens. In addition, less dangerous pathogens were identified, including pathogens that can cause fever, ulcers, acne, yeast infections, strep throat, periodontal disease, Rocky Mountain Spotted Fever, and more.

Hall of Records HR. 2021-943774381821

All mask mandates have proven counter-productive in preventing disease and must stop immediately. That includes all modes of transportation (airlines, trains, busses, etc.), all government facilities, all public venues, all places of business, and all educational institutions. Wearing a mask is a choice. Mandating masks is a violation of our natural law. All people deserve to breathe freely.

Health Authorities in Industries that require mask wearing due to hazardous conditions or to prevent injury, such as, but not limited to, OSHA, NHS, and The Surgeon General all require masks to be removed every 2 hours for a minimum of a 20-minute break due to the decrease in available oxygen. A decreased level of oxygen may cause brain fog, long term brain injury and even death. If people out of free will choose to wear a mask, then the above protocol must be followed.

If school age children are wearing a mask by parental consent, then a strict protocol must be administered by school personnel of brushing teeth, using mouthwash and hygiene after eating before reinstalling the mask in order to prevent pneumonia, gum disease, tooth decay, pleurisy etc. Notice must go out to the parents which must contain the following statements:

- Prolonged wearing of a mask has been known to cause impaired judgement, impaired ability to learn, impaired ability to focus, impaired ability to retain information, cause irritability, blurred vision, candida infections, lung infections, eye infections, dental/oral infections as well as many other ailments.
- If you choose for your child to wear a mask, the masks must be clean and be changed preferably every 2 hours.
- Proper oral hygiene guidelines must be followed and your child, if wearing a mask, must bring to school: mouthwash, toothpaste, dental floss, and a toothbrush.

Failure to comply with this order will result in immediate grounds for criminal prosecution, and all who are in violation of this order will be held accountable in both personal and private capacities.
